

We Need Your Input!

Please help the Southwest Georgia Multi-County Transportation Study team identify transportation and growth issues within the study area. Just complete this comment sheet, then fold, seal, and drop it (no postage necessary) in the mail, or fax it to SW Georgia Multi-County Transportation Study at (404) 463-5033. Thank you.

Existing Transportation and Growth Issues – Please help us understand what transportation and growth issues are facing your area.

- Safety: Where do many accidents occur?
- Capacity: Which roads carry the most cars?
- Congestion: Where do you experience traffic congestion?
- Connectivity: Are there locations that are difficult to get to?
- Pedestrian/bicycle facilities: Where are sidewalks and bicycle facilities needed?
- Road maintenance: Are there roads in poor condition? Are there roads that need paving?
- Access to residential/employment centers: Is it easy to access your home or job?
- Truck/railroad traffic: Which roads have a lot of trucks on them? Which routes experience excessive delays because of trains? Do you have safety concerns regarding specific railroad crossings?
- Development patterns: Where is growth happening?
- Large developments: Are there any large developments in the area or planned for the area?
- Other: Any other transportation issues of which GDOT should be aware?

Name and Address (Optional):

Thank you! To ensure that your input is incorporated into the study,
please return your comments no later than **April 01, 2009.**
